WORK EXPERIENCE

MERN Stack Intern - Fluxvisio Dynamics

Jan 2025 - Present

- Collaborated on full-stack development of a restaurant app, improving order flow efficiency by 30% and reducing delivery wait time by 15%.
- Migrated legacy React state to Redux, improving app performance and maintainability for 100+ components, enabling 25% faster feature rollout.
- Built real-time auto-order processing using Socket.io, reducing order confirmation delay by ~40%.
- Developed and optimized 10+ REST APIs using Node.js, Express.js, and Prisma, reducing API response time by 30% and supporting 500+ daily users.

PROJECTS

E-Commerce Website

<https://adarshjeet0.github.io/e-commerce-frontend/>

Tech Stack: React, Redux Toolkit, Traditional CSS, Node.js, Express.js, MongoDB, Mongoose, Cloudinary

- Built a full-stack e-commerce platform inspired by Flipkart, with complete front-end and back-end.
- Implemented product listing, user authentication, cart management, and order placement features.
- Used Redux Toolkit for efficient global state management and seamless user experience.
- Designed responsive UI using traditional CSS for a clean and user-friendly interface.

Social Media API

<https://social-media-api-b4ga.onrender.com/api-docs/>

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, Swagger (OpenAPI 3.0)

- Developed a RESTful API for a basic social media platform supporting user auth and post management.
- Implemented endpoints for user signup/login, creating, reading, and updating posts.
- Integrated Swagger (OpenAPI 3.0) to provide clear and interactive API documentation for developers.
- Utilized Mongoose for data modeling and database interaction with MongoDB.

User Profile Analyzer

<https://adarshjeet0.github.io/user-profile-analyser/>

Tech Stack: React.js, GitHub REST API, Traditional CSS

- Built a responsive web app that allows users to search for any GitHub username and view their public profile information and repositories.
- Focused on clean UI/UX using traditional CSS and React best practices.
